 - **Databases:** MongoDB, SQLite, Supabase (SQL).
 - **Tools & Platforms:** Electron.js, Git, Zod, Axios, React Hook Form, Adobe XD, Figma.
-

PROFESSIONAL EXPERIENCE

Full-Stack Product Developer (SaaS Focus) *Independent Development* | Jan 2025 – Present

- **Project: Tax Management SaaS Platform (Sri Lanka)**
 - Architecting a cloud-based tax filing application tailored to the 2025/2026 Inland Revenue Department (IRD) regulations.
 - Implementing complex algorithms to automate tax liability calculations, reducing manual errors for individual taxpayers.
 - Utilizing **React** and **Node.js** to build a secure, multi-tenant architecture capable of handling sensitive financial data.
 - Leveraging **AI-driven development tools** to accelerate the MVP launch and optimize code efficiency.
- **Project: Cloud POS & Inventory System**
 - Leading the migration of a desktop-based inventory system into a comprehensive web-based SaaS solution.
 - Designing centralized database schemas to support real-time stock synchronization across multiple physical outlets.

UI/UX Developer (R&D Department) *Ceylon Weighing Machines* | Apr 2024 – Oct 2024

- Designed user-centric interfaces for industrial weighbridge systems using **Adobe XD**, enhancing operator efficiency.
- Collaborated with the engineering team to customize **VB.Net** applications, streamlining workflows for diverse client requirements.
- Conducted user testing to identify and resolve usability bottlenecks in legacy software.

Freelance Full-Stack Developer *Remote | Jan 2023 – Mar 2024*

- **Desktop POS Development:** Developed a standalone Pharmacy POS & Inventory Management System using **Electron.js, React, and SQLite**. Implemented offline-first capabilities to ensure business continuity during internet outages.
- **Conversational Commerce:** Built a WhatsApp-based POS bot using **Node.js, Twilio, and Supabase**, allowing businesses to process orders directly via chat interfaces.
- **Client Solutions:** Provided custom web development services for SMEs, focusing on responsive design and performance optimization.

Web Developer *Global Cloud Tech Solutions | May 2021 – May 2022*

- Developed and maintained dynamic websites using **HTML, CSS, PHP, and SQL**.
- Managed database updates and performed regular maintenance to ensure 99.9% site uptime for clients.

Web Developer *Sanota Pvt Ltd | March 2020 – Sept 2020*

- Built and deployed the company's official corporate website using **Bootstrap** framework, ensuring full mobile responsiveness.
